## TAURUS

**Taurus love spring summer 2024:** Jupiter and Uranus are still together for 5 months in your zodiac sign and therefore we must not underestimate their influences which obviously can also be used in the sentimental sector and even without looking much at the transits of Venus and Mars. Still 5 months to upset your love life by making that meeting you have so desired or by taking a very important choice with the person you have at your side and that is to go to live together, get married, even simply choose the date of the wedding or go to live in a new home. If you are alone the best times to get to know someone are those with Venus in Taurus from 30 April to 23 May 2024, in Virgo from 6 August to 29 August 2024 and with Mars in Taurus from 10 June to 20 July 2024. Great times to be fascinating and seductive and win the heart of the person you like so much. Uranus could bring a love that is suddenly or absolutely different from the usual, very unusual.

**Taurus career money spring summer 2024:** the sowing year for you is not yet over as Jupiter is in your zodiac sign until the end of May 2024 and those projects that you were unable to carry out by the end of last year can now be realized. What could happen with Uranus in your sky is that you could suddenly change the goal to reach, you could decide at any time to take another path but by the end of this year we are almost certain that you will be able to achieve what you have in mind. . Meanwhile, while spring is useful to continue working on some projects and to increase your number of customers, summer could already allow you to obtain small and large satisfactions thanks to Jupiter in transit in the second sector which can indicate large gains or large investments. financial, perhaps to buy a house or a useful tool for work or to buy a car. Good news coming.

**Taurus luck spring summer 2024:** obviously a very lucky period because with Jupiter moving between your zodiac sign and that of Gemini it is easy to understand that destiny is on your side and could bring numerous lucky opportunities in every sector of your life. Considering the position of Uranus, we are almost convinced that many of you will really receive from destiny that opportunity that they have been waiting for a long time, that right opportunity to redeem perhaps a not so positive past period. In short, if you have sown a lot in recent months and also during the first months of this year, then between spring and summer you will enjoy the support of luck. Do not underestimate the importance of cultivating hobbies, sports, which allow you to relax and recover numerous energies by finding the right balance between mind, body and spirit. Finally, many trips are to be foreseen and resolution of legal cases, bureaucratic problems that began a few years ago.

## GEMINI

**Gemini love spring summer 2024:** finally the year you've been waiting for a long time, exactly 12 years ago. In fact, the arrival of Jupiter in spring, from the month of June 2024 will be a godsend also for your love life and to strengthen the union of love by making very important decisions. Until the end of May maybe you will have only a vague idea of what could happen but from the month of June you will feel a very strong need to love, to become more fascinating and try a courtship but we are almost sure that you will be appreciated and courted and you will be able to live Magic moments. If you are already married you may feel the need to have a child or to buy a new house or to do renovations inside it while if you are engaged here is the idea of going to live together, to choose the date of the your marriage or even to live it by the end of the year, could fill your mind very assiduously.

**Gemini career money spring summer 2024:** on a professional level obviously there will be very heavy periods, tiring even during this spring and summer, such as the one with Mars in Pisces from 23 March to 30 April 2024 but the good news of finally having Jupiter with you from June 2024 will make you forget all fatigue and tension. For the first 5 months Jupiter will allow you to always fall on your feet, to always have a parachute in the most complicated moments of work and so you can do much less damage. Starting from the sixth month of the year you will have to push on the accelerator foot and step forward, assert your ideas that might appeal to someone who will therefore be able to give you the right opportunity to improve your working condition or to finally get your first job. Do not stop and do not be afraid because by the end of the year you will achieve enormous satisfaction and also very interesting professional goals, perhaps having to pull out a lot of money.

**Gemini luck spring summer 2024:** a very good year also as regards the physical because in the meantime during its first part that Jupiter in Taurus and therefore behind it will allow you to sustain a lot of effort and to find the right treatments for any discomfort but what is much more interesting is the beginning of the summer in which you will be full of energy with the entry of Jupiter into your zodiac sign thanks to which a new life path will begin. Do not underestimate the possibility of traveling a lot, of going to unusual places because this can be the year of the great love meeting or the great professional or financial agreement. No one can stop your path and considering that Mars will be hindering in the spring, you have many months on your side to get what you want. Beware of that Saturn that being in quadrature with the zodiac sign Pisces can make you, in some moments, more silent, depressed, melancholy and create some damage to the bones, joints, teeth.

## CANCER

**Cancer love spring summer 2024:** an excellent Jupiter in the first 5 months of the year and some transits of Venus and Mars that favor new sentimental encounters if you are still lonely hearts. With Venus in Pisces until 5 April 2024, in Taurus from 30 April to 23 May 2024, in Cancer from 18 June to 11 July 2024 and in Virgo from 6 August to 29 August 2024 and with some transits of Mars that can offer a lot more libido and seductive power, such as the one from 23 March to 30 April 2024 with the red planet in Pisces and the one from 10 June to 20 July 2024 in Taurus and from 5 September to 4 November 2024 in Cancer. A year and above all a spring and summer in which you could also experience various erotic adventures, be very attractive and courted and it would be really stupid to be alone even after a painful separation. If you are going to live together, get married, go to live in a new house with your partner, then take advantage of the first 5 months of the year and therefore also spring.

**Cancer career money spring summer 2024:** an excellent sky also for work because let's not forget that in addition to having various favorable periods thanks to Venus and Mars, Jupiter will be with you until the end of May and its new transit in Gemini, so behind you it will not be absolutely useless or negative but it will even allow you to solve various professional problems that you will encounter on your way and also to meet a person who will help you carry out some projects. However, if you do not have a job yet then move before the new transit of Jupiter, also supported by Uranus in Taurus and by a wonderful Saturn in Pisces that will make you very mature, more responsible and able to work many hours a day to achieve important goals. A very useful year to start with another project, to make changes within your own company or office that will bring a lot of stability later. Business trips in the spring to achieve new professional goals.

**Cancer luck spring summer 2024:** we often consider the planet of luck our beautiful, exuberant and expansive Jupiter that always manages to bring out useful opportunities to improve our life if we have worked hard but do not consider Saturn and Uranus as in your case and the various transits of fast planets such as Venus and Mars is a very big mistake. In short, if Jupiter can bring fantastic opportunities in every sector of your life, Uranus can make them all unpredictable, never boring while Saturn helps to consolidate them and therefore to carry them forward in the coming years. Great physical energy, great creativity to be developed especially in spring because of course you will want to have fun in the summer but perhaps many of you will have the desire to work hard even during the summer months. With Jupiter in Taurus, however, it is necessary to leave, to travel a lot even not so far from the place where you live, to get

to know different traditions and peoples, people with whom to start new adventures.  
You are in tune with the world.

LEO

**Leo love spring summer 2024:** especially the summer for you will be fun and better as regards the love life with probable encounters, falling in love for those who are still alone. We must wait for the summer as with Jupiter in quadrature with the zodiac sign of Taurus you cannot expect great chances, indeed, in some cases, we could also witness separations and divorces. In fact, not only Jupiter in quadrature from the zodiac sign Taurus but also Uranus which is always found in this zodiac sign of earth and could indicate an immediate separation, a very abrupt break between you and your partner. It is not an easy time for those who are alone especially if they have closed a love story a few months before but with Jupiter in Gemini the prospects improve and you can experience a period of great sentimental rebirth, obviously if you yourself have a great desire to return to feel good emotions. Venus in Leo from July 12 to August 5, 2024 could set off a nice spark.

**Leo career money spring summer 2024:** the professional but also economic difficulties are linked not only to the planet Jupiter which is in quadrature with your natal Sun until the end of May 2024 but also to the transit of Uranus in Taurus which could, but fortunately only in extreme cases, make you lose your job, a lot of money following a financial investment or make you live in a nervous, agitated professional in which you yourself are no longer well. It is necessary to be cautious and not underestimate the first 5 months, being careful to avoid deceptions, unclear business, traps, subterfuges by people who only want to deceive you. The summer for work will instead be much better thanks to Jupiter finally in Gemini and you can look around you, trying new professional paths, perhaps detaching yourself from an environment that no longer makes you feel good. If you are looking for a new job, work hard, study, be prepared because the opportunities will come by the end of the year.

**Leo luck spring summer 2024:** the year promises to be divided in two due to the double transit of Jupiter which will be in Taurus in the first 5 months and subsequently in Gemini. Physically, the most demanding periods and in which you may feel very tired as well as with little creativity and also nervous, are those with Mars in Taurus from 10 June to 20 July 2024. In these two months or so you must not overdo the diet, with the vices, you should rather avoid everything that can burden your body. You may suddenly gain weight or even decrease your weight because let's not forget that Uranus is in Taurus. Surely with the arrival of Jupiter in Gemini and with a better optimism that will circulate within you, you will be able to feel better, more daring and serene with yourself, being able to recover even from some malaise of the past. Beware of unnecessary expenses and complicated financial investments during the first part of the

year as you cultivate new friendships in the summer.

## VIRGO

**Virgo love spring summer 2024:** much better the first part of the year 2024 for love as you are not only supported by the planet Jupiter but also by Uranus even if Saturn in opposition asks you not to live a superficial sentimental relationship but to take on the right responsibilities. What Saturn, the planet of time, wants to teach you is to be aware that only by carrying on a love relationship based on true, mature, concrete, responsible feelings, is it possible to move forward and strengthen everything. However, during the second part of the year and therefore since the summer, a transit of Jupiter in Gemini takes place which forms a square with Saturn in Pisces. Here, very superficial romantic relationships will have to understand whether it is convenient to go on or stop, separate. If, on the other hand, your love story is really very solid then the summer promises to bring many commitments and sacrifices but which will help to improve everything. Singles don't have a lot of chances between spring and summer.

**Virgo career money spring summer 2024:** with the double support of Jupiter and Uranus surely by the end of May 2024 you can reach excellent goals, carry out many projects and improve your social and economic condition but we must not forget that that Saturn asks you a lot of sense of responsibility and assumption of crucial choices and decisions. Undoubtedly this year at a working level is not easy but it can bring a lot of satisfaction. Spring work hard because with the arrival of Jupiter in Gemini which will form a square with Saturn in Pisces, it is likely to take some steps back on a professional level, even lose your job in some but fortunately rare cases and also a lot of money. So don't make financial investments like buying a new home and trying new unclear career paths. Summer must be lived with great caution and postponing unnecessary work. The climate in the workplace can become unbearable at times.

**Virgo luck spring summer 2024:** with positive Jupiter and Uranus you could expect a very advantageous year for you and in fact good results can come but you must also consider Saturn opposite to your natal Sun for the whole year and therefore for the whole spring and winter. Not an easy time to recover physical energy and only a short period will allow you to feel in good shape, that is the one with Mars in Taurus from 10 June to 20 July 2024. Do not underestimate the periods with Mars in Pisces from 23 March to 30 April 2024 and in Gemini from July 21st to September 4th 2024. They could be very heavy on your physique and the nervousness could increase a lot. Do not neglect any discomfort and do not think of making very long and exhausting journeys and if any of them is necessary then try to find the right time to rest, to recover energy. A bereavement could also weigh down this period, perhaps of a distant relative.

## LIBRA

**Libra love spring summer 2024:** if you are still alone but you have within you a very strong desire to fall in love again after having lived perhaps a few years alone or after a very complicated and painful sentimental separation, then you will have to wait for the second part of the year and exactly the one that concerns the summer in which a beautiful Jupiter will finally form a trine with your natal Sun giving you the right opportunities to meet someone to fall in love with. In fact Jupiter will be in Gemini from the end of the month but what destiny desires for you is a constructive, mature, responsible, not very superficial love since Saturn will form a square with this Jupiter. So try to meet people who have these qualities and you will arrive at the end of the year very satisfied, in love more than ever and with the great desire to take some steps forward very soon. The transit of the planet of luck takes place in the ninth house and who knows if a journey is revealing.

**Libra career money spring summer 2024:** with Jupiter and Uranus in the eighth house two things can happen that are the opposite of the other and exactly you could find yourself in a position to spend a lot of money, to make wrong or otherwise necessary investments that may concern your home or family but also work or earn a lot of money as a result of a cash win or an unexpected inheritance. Nobody can say exactly what will happen but certainly professional life will improve with Jupiter entering Gemini and all those who are looking for a new job perspective, a new professional path to follow, a chance to demonstrate their qualities, will be able to be satisfied even by the end of the year. So a summer in which not only to think about fun but also to work a lot, studying, thinking about new projects and looking for profitable collaborations to carry on, also contacts with cities other than the one in which you work.

**Libra luck spring summer 2024:** speaking of energies, vitality, creativity, psychophysical well-being, balance between mind, body and spirit, we must say that the arrival of Jupiter in Gemini will be very useful but in general this is not a great year to strengthen the inner life. Probably with Jupiter and Uranus in the eighth house your sexual impulses will be accentuated but the level of creativity, useful for strengthening your life in all areas, will be rather waning. Mars in Aries from 1 May to 9 June 2024 will certainly be the most difficult period on a physical level and in which to be very careful not to underestimate a malaise, a disease so that it cannot get worse. Saturn transits in the sector connected with health as well as with daily life and probably indicates the need to take care of one of your parents, who may have become very old. Traveling is especially useful in the second half of the year with Jupiter in Gemini

because you will relax more.

# SCORPIO

**Scorpio love spring summer 2024:** spring is not a good time for you and not just in love. Unfortunately with Jupiter and Uranus, speaking only of your love life, you will be forced to undergo a breakup, a separation or to experience a very important crisis, a crisis so complicated as to make your everyday life a real hell. If, on the other hand, your love relationship has already been interrupted with the end of last year, then it is better to stay alone for the moment and think about regaining confidence in yourself because having Uranus still for the whole year in opposition does not facilitate amorous encounters and above all it does not allow them to last. Spring and summer should be useful to better understand who you are, where you are going and what kind of romantic relationship you are looking for. With Jupiter in Gemini from the end of May 2024 you will surely feel that you have found a greater inner serenity but the meeting with your soul mate will still seem to be very far away.

**Scorpio career money spring summer 2024:** separations could take place not only on a sentimental level but also on a professional level. A society that is terminated, a collaboration that ends suddenly or your desire to undertake solitary paths that will not be so efficient and advantageous considering that Jupiter will be opposite until the end of May 2024 and Uranus unfortunately will be in Taurus for the whole year yet. Unavoidable, irreparable changes in your working life, completely wrong choices and decisions, economic losses. All this is possible but fortunately that Saturn in trine from the zodiac sign Pisces allows you to think well avoiding making choices and making decisions too quickly and stupidly. Remember that when Jupiter is the opposite, you have to know how to be satisfied with what arrives in the workplace, without asking too much and without being deceived by false promises. Indeed, illusions and delusions will be likely in this area.

**Scorpio luck spring summer 2024:** with opposite Jupiter and Uranus you risk experiencing a very disappointing spring, really heavy from a psychological, emotional, physical point of view and resorting to some treatment will be inevitable. If your life has already been upset by some unforeseen and drastic, unpleasant event, then you could have a more peaceful summer but other events could still come. An excellent period to recover energy and feel more optimistic, more confident in yourself is the one with Mars in Pisces from 23 March to 30 April 2024 while the worst period for health, for creativity, for vital energy, is the one with Mars in Taurus from 10 June to 20 July 2024 in which pessimism could take over. Don't be alone but find a way to be around people and therefore think less about the problems you are facing. Perhaps weight gain and some vice that instead of moving away, increases risking to create further moments

of physical and mental difficulty.

# SAGITTARIUS

**Sagittarius love spring summer 2024:** with Jupiter and Uranus in the sixth house but Saturn in quadrature unfortunately the love life can become quite heavy, annoying and you could start having unhealthy ideas that could lead you later, with the arrival of Jupiter in Gemini, therefore in opposition to your Sun natal, to a separation, to the decision to abandon the person you have at your side to embark on a life alone. Spring will be less stressful on a sentimental level but summer 2024 you will be forced to make a choice, a choice that could also be very melancholy, make you fall into a period of depression but much better to cry than to fight constantly. Obviously not all romantic relationships will go through a separation, instead others may simply face a period of crisis in which you are not understood by your partner or you do not understand her needs. With Jupiter in Gemini all possible incompatibilities will come out.

**Sagittarius career money spring summer 2024:** a first part of the year rather interesting for work with considerable progress thanks to the double support of Jupiter and Uranus who pass through the sixth house and in the workplace the first 5 months could make you live in a positive, peaceful, collaborative environment with colleagues of work but subsequently, with the arrival of the opposition of Jupiter this climate could worsen and you will have to face new challenges, more and more difficult also because Saturn will always be in square with your natal Sun. It is not easy to accept sudden professional changes, the loss of working and economic conditions which were quite advantageous but unfortunately for many of you this will happen. Many more responsibilities in the summer and if you are looking for a job know how to settle for what comes because despite a good preparation, many studies, it will not be easy to find the right opportunity that chance you so much desire.

**Sagittarius luck spring summer 2024:** the astrological moment is not very favorable in various areas of your life but we must say that in reference to your body this spring and this summer could be really very tiring because of Saturn in quadrature and which in turn forms a square with Jupiter in Gemini . Do not overdo some vices, take care of your diet, your body, do not neglect ailments that may seem trivial and do not believe, above all, in stupid illusions that may be born in your head but also come from unreliable people who will only want to deceive and disappoint you. . A really stressful period is the one with Mars in Pisces from 23 March to 30 April 2024 and therefore the beginning of spring risks being complicated to live. In the second half of the year, be very attentive to any problems connected with justice, legal problems that could arise and distractions in any area, including driving a car.

**Work and money**

# CAPRICORN

**Capricorn love spring summer 2024:** really good year in which to be very reactive in its first part in the sentimental field. Jupiter will offer many opportunities to meet someone who will make your heart beat faster and these encounters could take place in a sudden, absolutely random way thanks to the transit of Uranus from the zodiac sign Taurus. Furthermore it must be said that that Saturn in Pisces describes a love that can be not very superficial, very mature and responsible from the very beginning of the relationship because it can identify not only these qualities in you but also in the person you will meet. Spring promises to bring wonderful joys, emotions, gratifications even to those who are already experiencing a love story who may decide to go to live together, to choose a new home, to make furniture changes inside the one they live in. . Summer with Jupiter in Gemini will be less exciting for meetings but the couple's life can proceed peacefully.

**Capricorn career money spring summer 2024:** with the double support of Jupiter and Uranus but also with the perhaps even more important one of Saturn, you risk making enormous steps forward at a professional level, putting in place absolutely interesting ideas and projects that could make you reach goals that were unthinkable in the past. . Perhaps already around the end of the old year you have thought about changing your career path or at least making changes to the job you have and all this will prove favorable by the end of spring. Consolidation of patrimonial and economic situations, important financial investments and further advantageous for your pockets but you have to believe more in yourself because the disappointing moments will come anyway and they will not be very few. If you are looking for your first job or are planning to change what you already have because you are disappointed, then fate will put the right opportunities in your path to change.

**Capricorn luck spring summer 2024:** the year is divided into two but in general many areas of your life should bring gratification and the achievement of various unexpected goals that you may have been working on for a long time, since last year. Speaking of energies, vitality, creativity and optimism, we must say that Saturn will tire your path enough but Mars will help you recover very well. Spring could bring a little tension and nervousness as well as stress, exactly with Mars in Pisces and joining Saturn, from 23 March to 30 April 2024 while Mars in Taurus from 10 June to 20 July 2024 will give you an extra boost. to react, to face every obstacle, every trial, every challenge without ever giving up. We must always be confident and not lose the goal to reach. The psychophysical condition improves in the second half of the year with Jupiter in transit in the sixth sector which promises very relaxing days and weeks, but also

months.

# AQUARIUS

**Aquarius love spring summer 2024:** definitely a complicated year but only if we look at its first part, exactly at its first 5 months in which Jupiter and Uranus unfortunately will be in Taurus, therefore in quadrature, feeding dissatisfaction in the family and in your relationship as a couple. Spring is going to be very hard but you will have to learn your lesson. Crisis, quarrels, misunderstandings that can be overcome pending the arrival of Jupiter in Gemini but if your love story is too complicated then Uranus will lead to a drastic marital separation. Perhaps the cause of this separation is to be found in the last year or even before and who knows that an important role was played by some extramarital affairs, affective betrayals carried out by yourself or by your partner. Jupiter in Gemini will bring you to breathe a new air where various occasions will come if you are lonely hearts and also if you come from a recent separation. Summer will be much more passionate than spring.

**Aquarius career money spring summer 2024:** in the professional field, most of the difficulties can be encountered during the first 5 months in which Jupiter and Uranus will be in quadrature with the zodiac sign Taurus, passing, three other things, in your fourth sector and it is likely that any problems and work impatience can influence family life or family life itself may influence some decisions and career choices. Do not spend too much money in vain because Saturn in transit in the second house brings little gain even after some disappointments created by Jupiter. Sudden and perhaps negative changes for some of you while those who are looking for a good professional job will have to wait for the beginning of the summer when we will witness the entry of Jupiter into Gemini. From the month of June it will be possible to raise your head and start again calmly, facing new challenges with greater determination. The year, in fact, is not an uphill one but a downhill one.

**Aquarius luck spring summer 2024:** a rather heavy spring in which some transits of Mars will steal a lot of physical and mental energy. With Mars in Taurus from 30 April to 23 May 2024 you will be nervous, agitated, stressed and it would be better not to travel too long to avoid further psychophysical stress. Appearance of psychosomatic ailments, seasonal ailments such as allergies that you absolutely must not neglect. Another very heavy period will be the one with the transit of Mars in Leo, exactly from 12 July to 5 August 2024 but luckily Jupiter will be your ally having entered the zodiac sign Gemini. Summer will therefore be stressful but it will still allow you to generate a lot of satisfaction and to start thinking about other paths to take. If you have faced a lawsuit, a judicial or bureaucratic problem in the past, since last year, then Jupiter in Gemini could contribute to the resolution of these issues.

## PISCES

**Pisces love spring summer 2024:** a great year, really very constructive in love. Your romantic relationship can progress, mature, evolve positively and both of you could become much more responsible people as well as more in tune. The complicity increases and not only the desire to make important and tiring projects but also to have fun. With Jupiter in Taurus and Uranus always in this zodiac sign, without forgetting the transit of Saturn in Pisces, according to these stars you could make a drastic decision, make a sudden but absolutely positive choice such as going to live together, marry or choose the date of marriage, even having a child or buying a new house in which to move in together. Beautiful projects that will not be feasible for everyone as they will require money but your love story can experience a spring and even a summer, despite Jupiter in Gemini from the month of June, truly magnificent.

**Pisces career money spring summer 2024:** all of you must absolutely commit yourself in the first part of the year and especially in spring when the influences of Jupiter from the zodiac sign Taurus and Uranus always in transit in this zodiac sign of earth, will favor agreements, contracts, new collaborations, very interesting professional progress especially for freelancers who will be able to increase their number of clients. An unforgettable year that will be slightly ruined by the new transit of Jupiter in Gemini, therefore in quadrature and which could bring illusions, disappointments but if you have been able to sow and harvest before this moment, then you can still enjoy your progress. If you are looking for a job it goes without saying that you have to study, send your resume and do interviews by the end of May 2024. This will also be a good time to buy a house or to sell the one you live in or to renovate it in proper way.

**Pisces luck spring summer 2024:** as regards the psychological condition as well as the psychophysical one, it is necessary to observe the transits of Mars as well as those of Jupiter and Saturn. While Jupiter will give you a lot of serenity, optimism, greater confidence in yourself and in your qualities, gifts, merits, that Saturn in transit on the natal Sun asks you to be very attentive to your physical form, avoiding neglecting any discomfort and therefore making it worse. especially when you no longer have the support of Jupiter from the zodiac sign Taurus. If in spring all your dreams could come true, in summer you will need to have your feet firmly planted on the ground and be very concrete. Mars in Pisces from 23 March to 30 April 2024 can help increase your nervousness as it will join with Saturn while Mars in Taurus from 10 June to 20 July 2024 will offer new energies and greater creativity able to make you reach further goals. Interesting trips during the spring.
